

Trenchkid Support Foundation

PROFESSIONAL PROFILE AND PARTNERSHIP BRIEF

Empowering Children. Building Futures.

TSF is a youth-led, community-driven foundation based in Bolga, Upper East Region, Ghana. The foundation exists to empower underprivileged children through education support, digital skills, mentorship, health support, and accountable community partnerships.

Prepared for Partners and Donors

Bolga, Upper East Region, Ghana

Executive Profile

Trenchkid Support Foundation (TSF) was founded on a simple but urgent belief: no child should lose their future because of poverty, lack of guidance, or limited access to opportunity.

THE NEED

Many children in underserved communities have the talent and ambition to succeed, but face barriers such as school fees, learning materials, low digital exposure, limited mentorship, and inconsistent support systems.

THE TSF RESPONSE

TSF creates practical pathways through school support, digital skills, mentorship, health and wellbeing support, and transparent community partnerships that help children move from vulnerability to confidence and capability.

At A Glance

1,247+	48+	23+	380+
CHILDREN TO SUPPORT	PROJECTS PLANNED	SCHOOL PARTNERS TARGETED	YOUTH TO TRAIN

Strategic Focus

- Education access: school fees, books, uniforms, stationery, and retention support.
- Digital opportunity: computer literacy, coding exposure, design skills, and entrepreneurship readiness.
- Mentorship: guidance from professionals, educators, developers, healthcare workers, and community leaders.
- Health and wellbeing: basic support that helps prevent illness and hardship from becoming barriers to learning.
- Accountability: recorded donations, visible reporting, admin-managed content, and transparent operations.

Mission, Vision and Values

MISSION

To empower underprivileged children with education, digital skills, mentorship, and community support so they can build independent and impactful futures.

VISION

A Ghana where every child, regardless of background, can access the support, skills, and relationships needed to become a confident contributor to society.

OPERATING BELIEF

TSF does not simply give handouts. TSF gives futures by investing in children, families, schools, volunteers, and community systems that can sustain long-term change.

Values That Guide the Work

DIGNITY

Children are supported with respect, care, and belief in their potential.

OPPORTUNITY

TSF opens doors to education, technology, mentorship, and leadership.

COMMUNITY

Progress is stronger when families, schools, volunteers, and partners work together.

TRANSPARENCY

Every donation and project should be traceable, reportable, and responsibly managed.

SUSTAINABILITY

Programs are designed to create lasting confidence, skills, and pathways.

SERVICE

TSF is led by people who understand the community and are committed to practical action.

Core Programs

TSF focuses on practical interventions that remove barriers, build skills, and connect children to people who can guide their growth.

School Support Program

Sponsors school fees, uniforms, books, and stationery for children whose families cannot afford them. The goal is simple: keep children in school and reduce dropout risk.

Digital Skills Academy

Introduces computer literacy, coding, graphic design, and entrepreneurship basics so young people can participate in the modern digital economy.

Youth Mentorship Program

Pairs children and young people with mentors from education, technology, healthcare, entrepreneurship, and community leadership backgrounds.

Health and Wellbeing Support

Supports access to basic healthcare and wellbeing interventions because a healthy child learns better and participates more confidently.

Community Partnerships

Works with schools, local leaders, volunteers, and partners to identify needs, coordinate support, and build a reliable support network.

Impact Model and Measurement

1. IDENTIFY

Work with schools and communities to identify children and families facing educational, digital, or wellbeing barriers.

2. SUPPORT

Provide targeted assistance such as school materials, fees, mentorship, training, health support, or emergency help.

3. TRACK

Record beneficiaries, projects, donations, and outcomes through the website backend and admin dashboard.

4. REPORT

Share stories, publish updates, maintain donation records, and communicate progress to partners and donors.

Expected Impact Targets

- 1,247+ children to support through TSF outreach and program activity.
- 48+ projects planned across education, mentorship, digital skills, and community support efforts.
- 23+ school partnerships targeted to identify needs and coordinate support.
- 380+ young people to train through digital skills initiatives.
- 600+ children targeted for annual school retention support through fees, supplies, and learning materials.
- 250+ mentor-mentee pairs targeted through youth guidance and career readiness support.

Operational Readiness and Accountability

TSF is supported by a web platform and admin dashboard built to keep public communication, donations, articles, gallery updates, and contact messages organized. This strengthens donor confidence and makes site management possible without editing code.

Donation Flow

Paystack Checkout handles card and Ghana mobile money prompts securely. The TSF site initializes payment from the backend and verifies successful donations before recording donor details.

Admin Dashboard

Authorized admins can update page content, contact details, team profiles, group photos, impact items, gallery photos, news articles, and public copy from a page-based sidebar.

Donor Records

Verified donations are stored for internal tracking. Email thank-you messages are sent when donor email is provided, and SMS appreciation messages can be queued or sent when an SMS provider is configured.

Content Publishing

Articles can be published with cover images and public URLs, making it possible to share updates directly with stakeholders.

Gallery and Evidence

Program photos can be uploaded, viewed, and downloaded, supporting stronger documentation of field activities.

Partnership and Funding Opportunities

TSF welcomes partnerships with individuals, companies, schools, churches, professional groups, NGOs, technology communities, and diaspora supporters who want to help children access opportunity.

- Sponsor Education: Fund fees, uniforms, books, examination support, stationery, and school retention packages.
- Support Digital Skills: Provide laptops, internet support, training materials, software tools, trainers, or learning spaces.
- Mentor Youth: Volunteer professional guidance in technology, healthcare, education, entrepreneurship, finance, communications, or leadership.
- Fund Health Support: Support screenings, basic care assistance, menstrual hygiene, wellbeing resources, and health education.
- Partner on Projects: Co-design community initiatives, outreach programs, school interventions, or skills bootcamps.

How Donations Are Directed

Area	Suggested Allocation
Education and school support	40%
Digital skills and mentorship	25%
Health and wellbeing support	25%
Administration and operations	10%

Note: Final allocations may be adjusted by TSF leadership based on verified community needs, donor restrictions, and project requirements.

A Professional Invitation

TSF is building a practical, accountable, and community-rooted support system for children who need more than temporary relief. The foundation is positioned to work with partners who want their support to be visible, measurable, and connected to real human stories.

What TSF is asking for

- Financial support for school fees, materials, healthcare, and program delivery.
- Technology support such as laptops, training tools, connectivity, and learning resources.
- Professional volunteers and mentors who can guide children and youth.
- Institutional partnerships that strengthen program design, monitoring, and reporting.
